

Goals

TV HIGHWAY CORRIDOR PLAN

... TVHIGHWAY.ORG

- Improve **mobility** and **accessibility** for travel by walking (including mobility devices), bicycling, transit, auto, and freight (both truck and rail) for people of all ages and abilities to a variety of destinations for work, play, school, community services and other activities.
- Enhance **safety for all users and modes** along and across TV Highway at times by providing safe and comfortable facilities for walking (including mobility devices), bicycling and using transit with complete and direct routes connecting residents to a variety of destinations.
- Strengthen and support economic **vitality**.
- Improve the **visual appearance** of TV Highway to create a **welcoming environment** that the community takes pride in and enhances **community identity**.
- **Reduce** overall and per capita **vehicle miles travelled (VMT)** by encouraging people to more efficiently use auto trips and increase walking, bicycling and using transit for local and regional trips.
- Promote **environmental stewardship** by enhancing natural system constructing improvements that minimize run off and respond to changing environmental conditions.
- Be consistent with state and regional comprehensive strategies to **reduce greenhouse gas (GHG) emissions**.
